<b>Target version:</b>	v14 - April Anons	<b>Spent time:</b>	3.00 hours
<b>Component:</b>	Orbot (Setup Wizard)		
<b>Description</b>			
<p>The first time that orbot is installed and we go through the wizard and complete all the steps, it brings us to the startTor screen. I don't think that one should be able to go back to the wizard by clicking the back button, cause obviously, they are done setting it up. Therefore, I think that this needs to be fixed, and am currently working on it.</p>
