| Description | | | |
| Some APKs cannot be effectively shared, like apps with DRM or other blocks. Can this be auto-detected? If so, then filter these out of the app list for selecting the shared apps. | | | |

History

#1 - 06/03/2014 04:41 pm - hans

- Target version changed from implement swap UI to 134

#2 - 04/29/2015 07:22 pm - hans

- Target version deleted (134)
