Target version:		Spent time:	0.00 hour
Component:			
Description			
<p>Real time PuSH streams are the new craze. It'd be great if Secure Reader was able to subscribe to PubSubHubbub streams/feeds. If you add this feature, please let the #indiewebcamp / #indieweb community know. A lot of us are currently producing PuSH notifications and we would love a secure way to consume them on Android. http://indiewebcamp.com/PubSubHubbub</p>
